

SUMMARY

Software Developer with a background in building user-friendly and scalable web applications. Experienced in React.js, Next.js, and blockchain technologies like Solidity and Web3, enabling the development of secure and decentralized solutions. Skilled at collaborating with teams to transform ideas into functional software while ensuring efficiency and transparency. Passionate about leveraging modern technologies to enhance user experience, optimize performance, and drive innovation in web development.

EXPERIENCE

- Startup Campus CTO

Nile University Startup Campus Club

10/2024 - Present

- Leading the planning and development of an app to encourage student productivity overseeing the technical strategy, architecture, and implementation.
- Software Developer

RefreeG – Crowdfunding Platform

09/2024 - Present

- Developing a hybrid crowdfunding platform enabling education funding through both cryptocurrency (Polygon) and Naira transactions.
 - Implemented Polygon smart contracts to ensure secure, immutable, and transparent donation tracking.
 - Integrated Web3 authentication for crypto donations for enhanced security.
 - Seamlessly integrated Paystack for direct Naira payments, ensuring fast and reliable transactions without holding funds on the platform.
 - Optimized transaction processes, reducing blockchain gas fees by 25% and ensuring cost-effective donations.
- Frontend Developer Internship

Hardcore Biometric Systems

07/2023 - 09/2024

- Developed and maintained 8 web applications using React, HTML, and SCSS, improving responsiveness and user experience.
 - Leveraged Git for version control, streamlining collaboration and reducing merge conflicts by 30%.
 - Actively participated in daily standups and demo meetings, gaining hands-on experience in Agile workflows and iterative development.
 - Identified and resolved critical bugs, enhancing project stability and improving delivery efficiency by 20%.

EDUCATION

- Software Engineering

Nile University Of Nigeria - Bachelor's degree

10/2021 - 11/2025

CERTIFICATES

- Freecodecamp

Freecodecamp Responsive Web Design Developer Certification

11/2021 - Present

SKILLS

Solidity	Basic	Thirdweb	Intermediate
Next.js	Intermediate	Scrum Methodology	Intermediate
React.js	Intermediate	Git	Advanced
TailwindCSS	Intermediate	Effective communication	Advanced
JavaScript	Intermediate	Collaboration Skills	Intermediate
Firebase	Intermediate
